

# CHEMISTRY

# DID YOU KNOW THAT CHEMISTRY CAN LEAD TO ...

## Jobs

Analytical chemist  
Chemical engineer  
Clinical biochemist  
Forensic scientist  
Pharmacologist  
Toxicologist  
Environmental chemist  
Teacher  
Nuclear engineer  
Geologist  
Science journalism

*"Chemistry is everywhere in the world around you! It's in the food you eat, clothes you wear, water you drink, medicines, air, cleaners... you name it. Chemistry sometimes is called the "central science" because it connects other sciences to each others, such as biology, physics, geology and environmental science"*

Anne Marie Helmenstine, Ph.D [thoughtco.com](http://thoughtco.com)

## Skills

- Ability to learn, understand and apply complex scientific concepts
- Analytical and evaluative way of thinking
- Numerical and computational skills
- The ability to handle and store hazardous chemicals and to conduct experiments safely and accurately
- Creativity, gained from designing experiments and finding solutions to problems
- Research ability and project management
- Strong verbal and written communication

## Higher Education

BSc (Hons) in Natural Sciences  
BSc (Hons) in Chemistry and Mathematics  
MChem (Hons) in Forensic Science  
MSci (Hons) in Biomedicine  
MChem (Hons) in Sustainable Processes  
BSc (Hons) in Chemical Engineering  
BSc (Hons) in Biopharmaceutical Science  
BSc (Hons) in Life Sciences  
BSc (Hons) in Medicinal Chemistry
