

DESIGN TECHNOLOGY

NOTTINGHAMSHIRE LABOUR MARKET

As technology continues to evolve and becomes essential in many occupational areas, there is a significant increase in the ways technology and design can be combined. The skills you gain studying this subject can be used in other sectors such as engineering and creative arts. As technology continues evolving and becoming essential in many different fields, there are more ways in which you can combine an interest in both technology and design. The average salary for a Civil Engineer Nottinghamshire is £28,268.
