

# PHYSICAL EDUCATION

## NOTTINGHAMSHIRE LABOUR MARKET

Studying a sports course provides the basis for many different career areas and can open up international opportunities. Don't just think about careers directly related to sport, this subject area develops your research and data analysis skills, problem solving, customer focus and your communication skills. Consider health related careers and business management. Physical Education links to the Sport sector which includes everything from professional athlete, training roles such as sport psychologist, fitness coach and personal trainer and health roles such as community sports development officer and physiotherapist. Sport England estimate over 400,000 people work in this sector and this is expected to rise to meet government health targets. There are over 7,200 health and fitness clubs in the United Kingdom, with over 10 million combined members. There are 50 fitness clubs in Nottinghamshire.
