Growing up and moving on

You may have heard of hermit crabs. They find a shell that fits, and then live in it until they grow too big for it. Do you know what hermit crabs do then? They leave the too-small shell and rush around the seabed looking for a bigger shell, before something eats them! This process repeats itself several times through the life of the hermit crab.

Why they chose All Saints'

My parents chose All Saints' because it is the highest performing school in Mansfield and they wanted me to have a good education. I am the only person to come from my primary school, at first it was tough because I didn't know anyone, but I have got new friends and it is all good!

Stan

My parents and sister made a list in 2020 of the top 5 schools in Mansfield and AS had the best reputation. Even though we are not Catholics we are very religious Christians and decided it was a well-respected school.

Ivena

It was mine and my families decision to pick AS because they knew it was a good school as well as a catholic school. My sister comes here and the teaching is good. Most of my primary school came here. It is also close to my house.

My family chose for me to come here because my brothers and sisters came here, my brothers came here and did great. My friends all come here too.

Kacper

My mum picked AS because she knew that this school could support us, I also came here because it is Catholic. Only 200 children can join each year which means the school will do everything to give us the best chance.

My mum wanted me to come to AS because it is a good school with a good reputation and it is a Catholic school. I also wanted to come because all of my friends were coming and it has very good exam results.
