What is Kudos

Kudos is designed with student exploration in mind

Students can kick-start their career exploration from four different starting points, depending on where you are in your education and on your personal preference. You have access to the career-matching quiz that will deliver career suggestions based on the student's interests. Or you can start by looking at subjects, work areas, or the career profiles yourself.

Kudos includes over 700 career profiles so exposing students to the world of work has never been easier.

Kudos helps students to explore the connection between what they're studying in school and their shortlisted careers. Kudos includes live job vacancies, live apprenticeship vacancies, and real-time labour market information. College and university courses are also pulled into the product in real-time.

How to Login

Logging in

Go to www.cascaid.co.uk/kudos

If you have a username and password, enter it in the **'Log in'** section.

If your teacher/adviser has given you a licence code, enter it in the **'Sign up'** section. This will allow you to create your own username and password.
